PUTNAM BOOKS AND AUTHORS

When the New York Times admits that "The Glass of Fashion" is "a very brilliant, interesting and well written book" you can concede it a place among the best sellers. The Gentleman with a Duster who shocked, tickled and thrilled America and England with his "Mirrors of Downing Street" applies the same treatment to London's society leaders, and great are the secrets revealed.

THE GLASS OF FASHION

is violently concerned with the sins of society—not generally, but specifically. The author singles out Margot Asquith and Colonel Repington as examples of the frivolous and ostentatious aristocrats, and proceeds to administer such a withering, scathing arraignment of them that the very pages seem to bristle. "The Glass of Fashion" makes scandalously delightful reading. Don't miss it!

Coming! A new Ethel Dell novel.

Mrs. Daniel S. Riker, Mrs. Joseph Hoyt and Miss Gertrude Hoyt, who were at the Profile House, N. H., for several weeks, have returned to New York.

Mrs. Thomas Slack has returned to town after a visit with Mrs. J. Hedges Crowell at her summer home, Gray Gables, Far Rockaway.

Gloria Gould Will Give Series of Spanish Dances

Miss Gloria Gould, daughter of Dr. and Mrs. George Jay Gould, will give a series of Spanish dances arranged by Louis H. Chalif this evening and tomorrow at the Spring Lake Golf Club for the benefit of the Spring Lake Hospital.

Let 'er Buck! Charles Wellington Furlong is the buckaroo who has put the Round-up into a book, and hasn't missed a single flash of the speed, the peril and the romance of the greatest show on earth. The title is "Let 'er Buck!" Plenty of pictures—all halftones from photographs of actual incidents. \$2.25.

The Tribune Fresh Air Fund

The Tribune Fresh Air Fund has sent out to the country during the current summer 180 parties of boys and girls. For the working days of July and August that is at the rate of 3.4 parties a day. Most organizations doing fresh air work send out one party each two weeks.

The total number of children included in these parties exceeds 11,500. Individual parties have ranged in size from one of five children sent to Flemington, N. J., to one of 621 children sent to Cortland, N. Y.

The summer season was the one beginning August 1. During this week 3,324 boys and girls were started on their way to the country, each one of them for a two weeks' stay. In a single day of this week were 1,382 children were put aboard country-bound trains.

Every one of the 11,500 children reached their destination safely. All except about 500 of them, who are still in the country, have been returned safely to their homes.

6,000 in Private Homes

A few more than 6,000 of the "Fresh Airs" were invited to spend their vacations in private homes in the country. In most cases the invitations for these children made certain specifications as to the type of child desired. Some were to be girls of a certain color of eyes, religion, complexion. Some were to be of a certain color of eyes or hair. Some were to be "cute" or "cunning," or lovable. Some were to be crippled, or lame, or blind, or deaf, or Swedisch or some foreign language. For the boys similar specifications were made.

Before each child was sent out from the city the Tribune Fund made a promise to bring the child back if he or she proved unsatisfactory to the host. The agreement covered the cleanliness of the child and its freedom from communicable disease. Under this agreement not more than 100 children have been returned to the city because of unsatisfactory behavior and four because they were judged to be in the class whose family circumstances did not warrant their being sent to the country. One of these last mentioned cases the judgment proved to be erroneous, while in the three other cases the judgment was questionable.

Most Hosts Satisfied

In addition to the children sent home, one child developed a violent fever while with her host, another whooping cough and a third mumps.

Drive Started On St. Lawrence Canal Proposal

State Inland Waterways Conference Is Organized at Albany; Backed by Chambers of Commerce

To Boost N. Y. Routes

President, Governors and Other Notables Invited on Tour of Inspection

From a Staff Correspondent

ALBANY, Sept. 1.—President Harding, the Governors of the various states, influential members of Congress and leading shippers in states bordering on the Great Lakes, will be invited to make an inspection tour of the state's inland waterways system from New York to Buffalo. They will be the guests of the New York State Inland Waterways Conference, an organization formed here to-day and which has for its backbone a state-wide representation of chambers of commerce and civic bodies.

The call for the meeting, which met at John D. Dunlop, chairman of the conference committee of the Hudson Valley Federated Chamber of Commerce. It is the initial move in a country-wide fight to prevent the unloading of the cost of canalizing the St. Lawrence River upon the United States. This plan, strongly opposed by several Western states, is opposed here for the reason that it is held that American money should not be expended for waterway mainly in foreign territory as long as the New York barge canal offers a satisfactory shipping medium.

Publicity Campaign Indorsed

Congressman Peter J. Ten Eyck and Arthur C. Harter, of New York, proposed a state-wide publicity campaign to advertise the New York canal. The subject was referred to a committee of which Mr. Ten Eyck was made chairman.

Mr. Ten Eyck was made chairman of the committee, which recommended that leading men should be invited to become guests of the conference on a trip through the canal.
